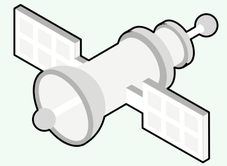
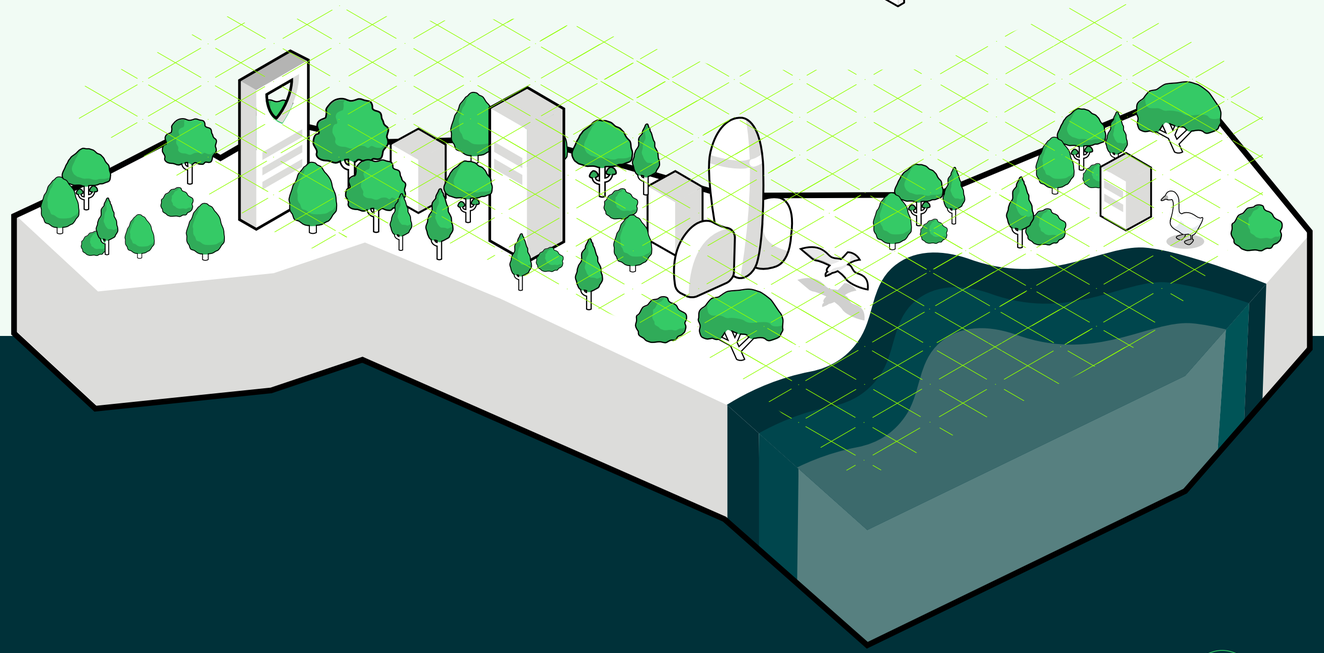
netzero

First platform in the middle east that allows companies to offset their carbon emissions by planting trees and greening the kingdom.



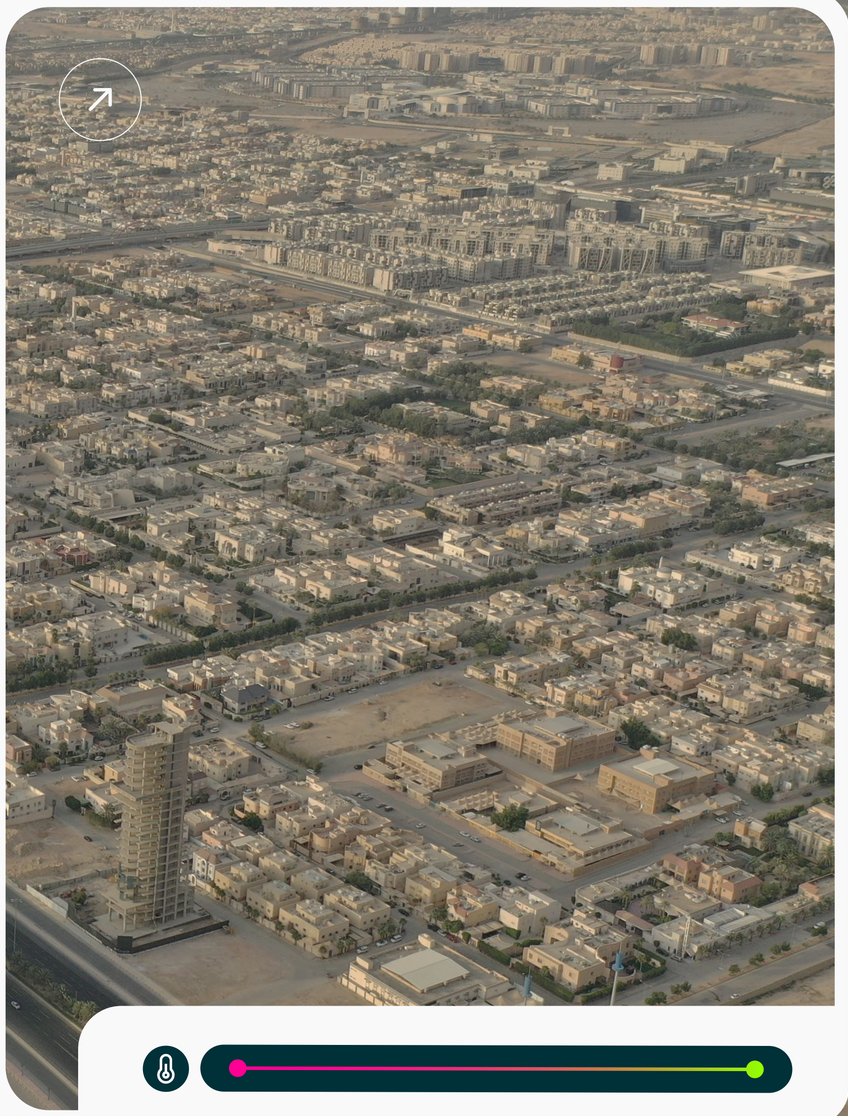


Desertification is costing the economy in billions

I WANT TO CONTRIBUTE

WE WANT TO OFFSET OUR CARBON EMISSION

WE WANT TO TRACK PROGRESS



Opportunity of Saudi Green Initiative

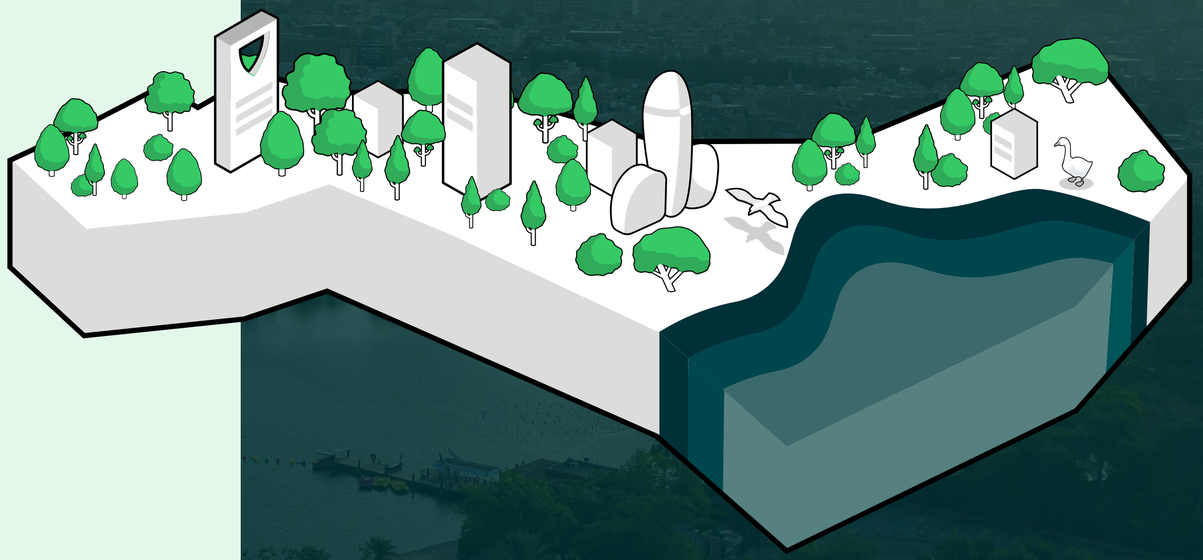
Saudi Green Initiative
مبادرة السعودية الخضراء

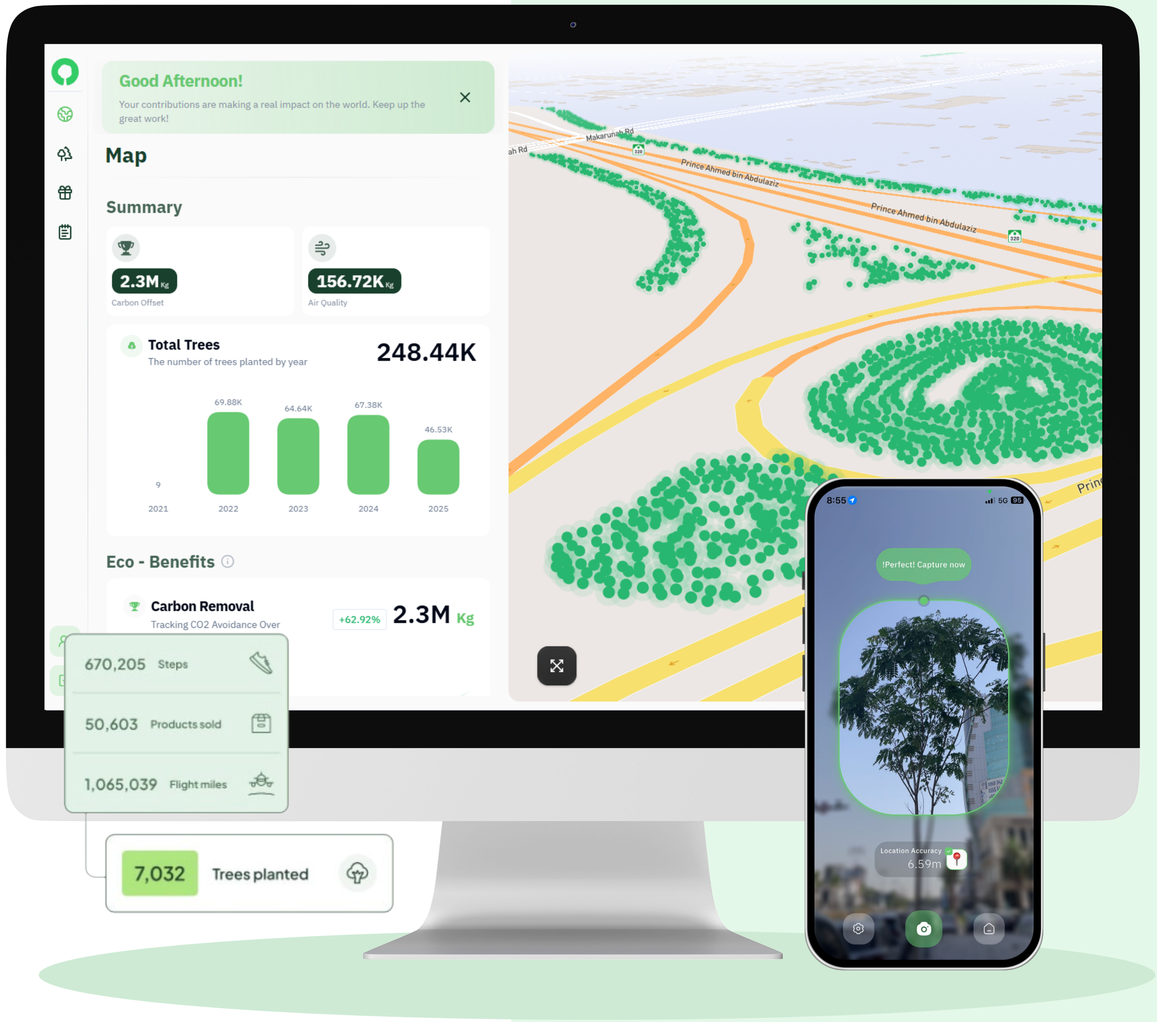
10 Billion Trees to be planted in the coming decades

278 Million tons per annum reduction of carbon emission by 2030

Turning the desert green and rehabilitating 40 million hectares of land over the coming decades is a cornerstone of the Saudi Green Initiative.

- Reducing Emissions
- Greening Saudi
- Protecting Land & Sea





netzero

A one-stop shop for high quality environmental & Social projects

The **first platform in MENA region** that enables companies and individuals to plant trees and offset their carbon emissions in a cost-effective, and **Transparent manner**

Traditional Tree Planting

Traditional Tree Planting Requires A Lot Of Resources And Time, Making It Costly And Less Scalable For Large Projects

Cost can range from 130–200 SAR per Tree

01

Acquiring Land

Manually selecting appropriate land for plantation.

02

Land Preparation

Which may involve clearing, tilling, and amending the soil.

03

Installation of Irrigation network

Setting up an irrigation system to ensure efficient watering of the trees.

04

Sourcing and Planting

Transporting Trees followed by physical plantation, which often requires significant manpower and resources.

05

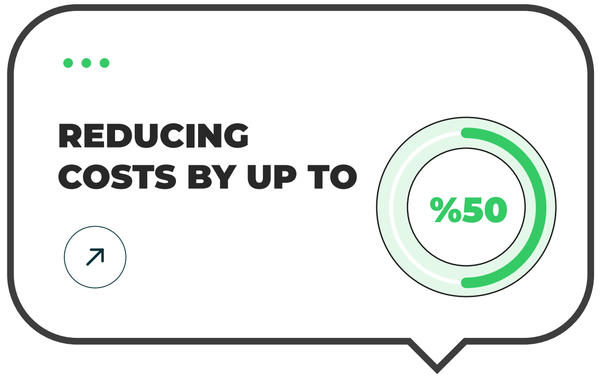
Maintenance

Continuous check on trees and Irrigation systems.

Netzero Tree Planting

Technology-Driven Efficiency, Saving Time And Improving Impact Monitoring For More Effective Outcomes.

Smarter, faster, and more cost-effective tree planting, reducing costs by up to 50%.



Plantation

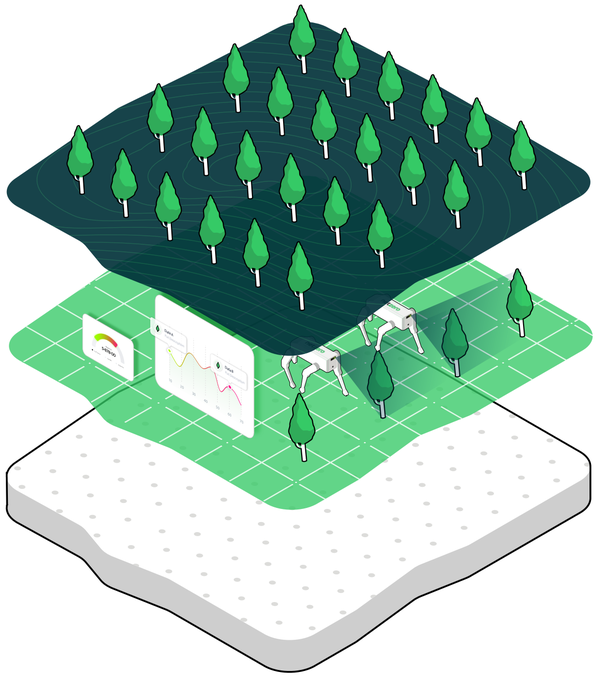
NetZero handles all the logistics, from land preparation and planting to maintenance. Without the need for the client's direct involvement.

01

Impact Tracking

Clients receive access to interactive map and physical images of their trees, allowing them to visually track their impact remotely.

02



PIONEERING GREEN TECHNOLOGY

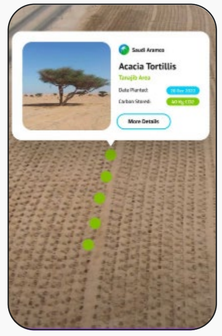
netzero developed multiple products with the aim of accelerating the progress of Saudi Green Initiatives and Middle East Green Initiatives.

TreeLog

A data collection tool with built-in machine learning engine to log tree data and estimate carbon storage.

treemap

The first map-based dashboard in the region that enables companies to track and measure their environmental impacts



treewallet

A platform that enable brands to engage with community by promoting sustainable practices

TreeLog®

Digitizing Nature Based Solutions

Unlocking Quality Carbon Offsets with Multi-layered Vision of Data

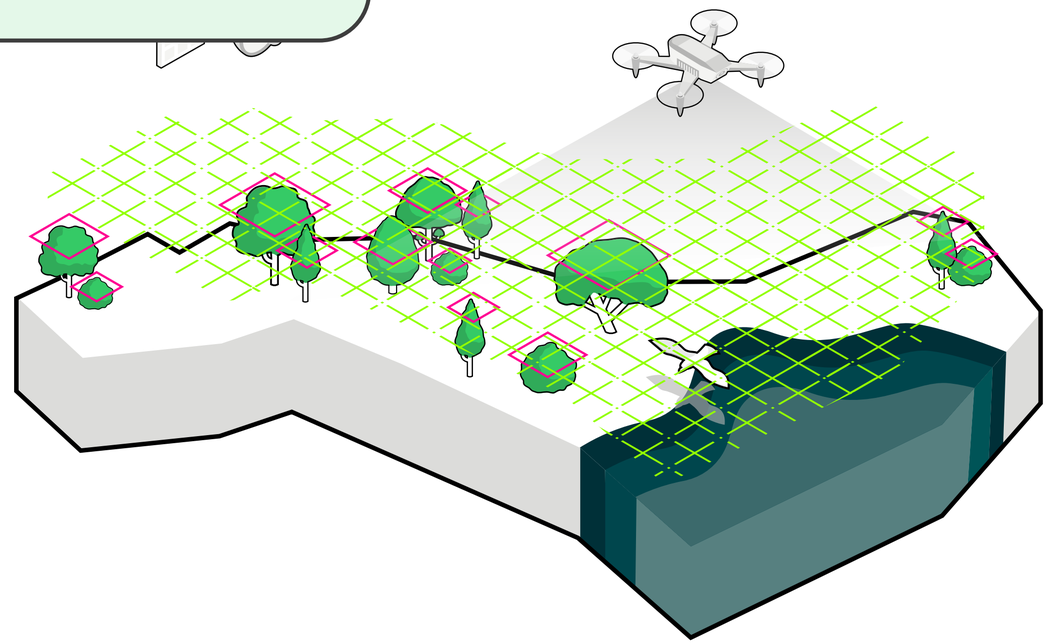
- Ground Level Data Collection to count each tree individually
- Multi-spectral Drone Scanning for continuous monitoring
- Satellite assessment of large-scale projects



Pioneering Green
Technology

treemap®

treemap®

Verified & Transparent

- Companies will be able to see where each tree is planted in an interactive web-based dashboard
- Introducing Transparency in carbon offset project one tree at a time

Built in compliance with carbon offsets standards

Verified Carbon Standard

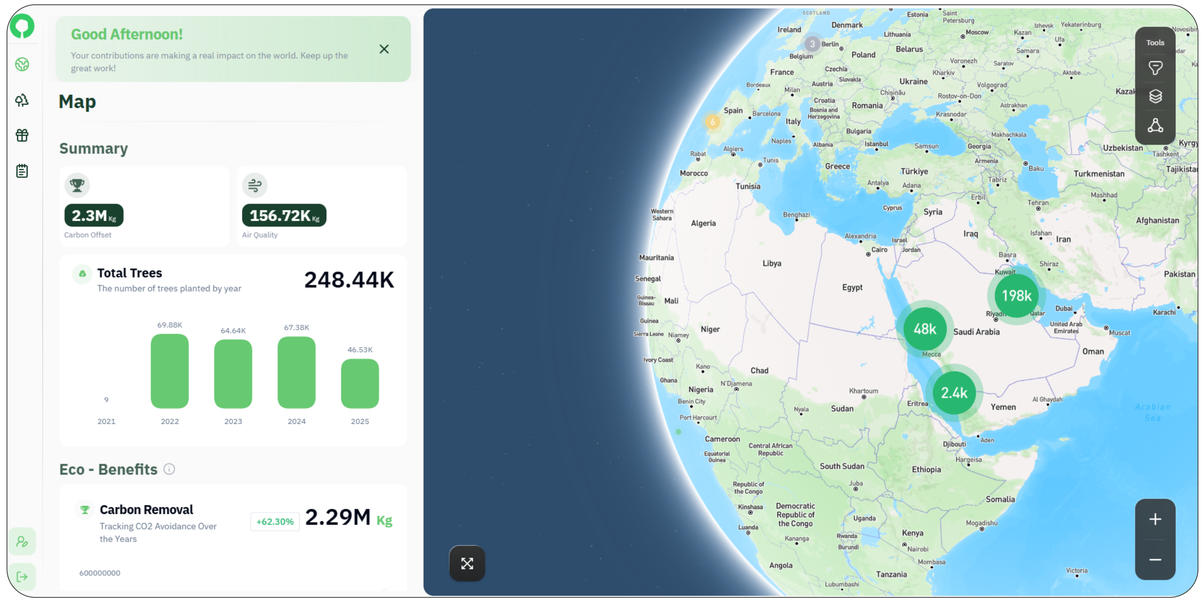
Gold Standard
Climate Security & Sustainable Development

PROJECTS TRACKING

Enables projects owners to track contractors or implementors progress of planting trees or mangroves and measure impact simultaneously

treemap®

- Counting each tree with unique insight
- Tracking multiple project progress day byday,hour by hour, min by min.
- Generating Projects Impact or Progress Reports instantly.

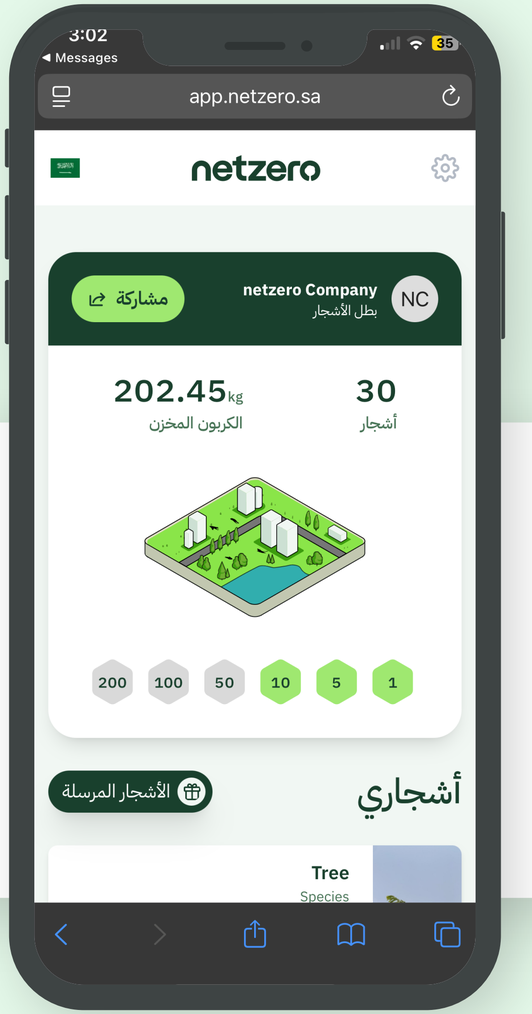


Pioneering Green
Technology

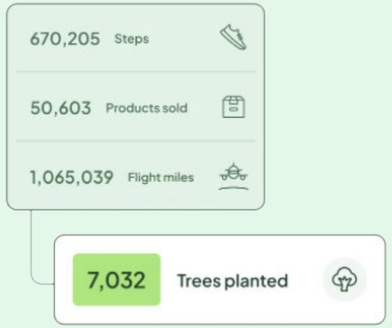
treewallet®

treewallet®

01



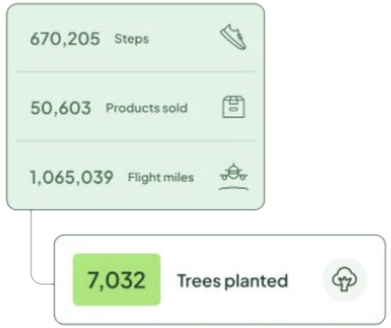
Participating companies can dedicate trees to the community, customers and clients this is to promote brand reputation.



treewallet®

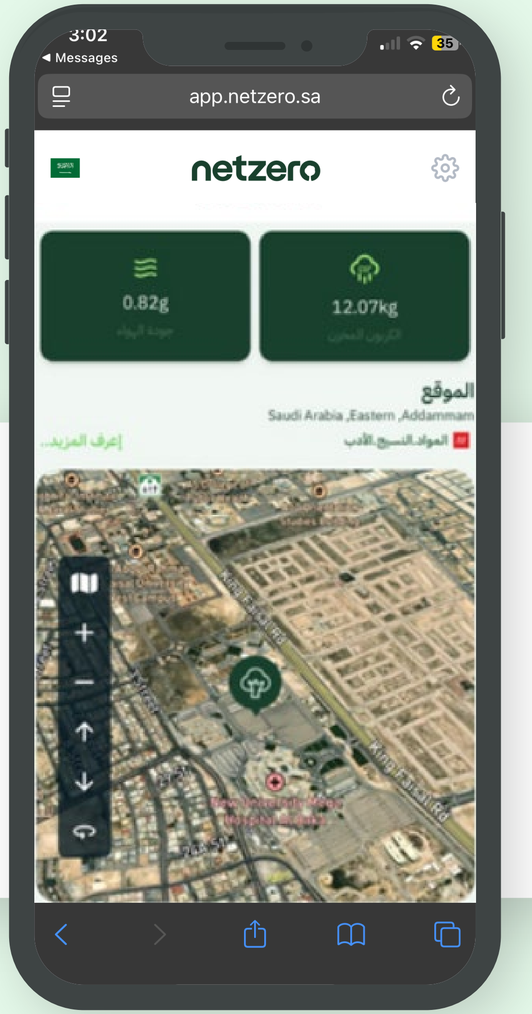
02

Users are able to see their trees, and their name on it. Track the ecological benefit of the trees.

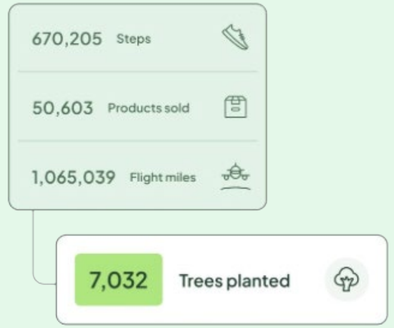


treewallet®

03

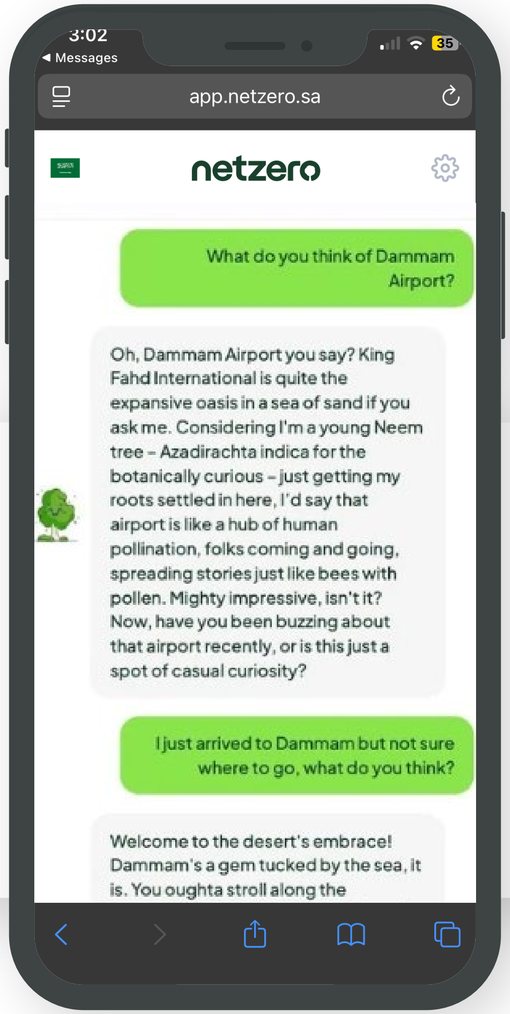


Users are able to see to find the exact location of the tree and be able to visit it.

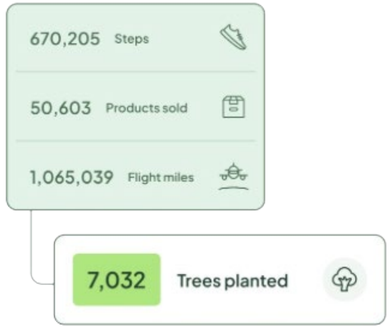


treewallet®

04

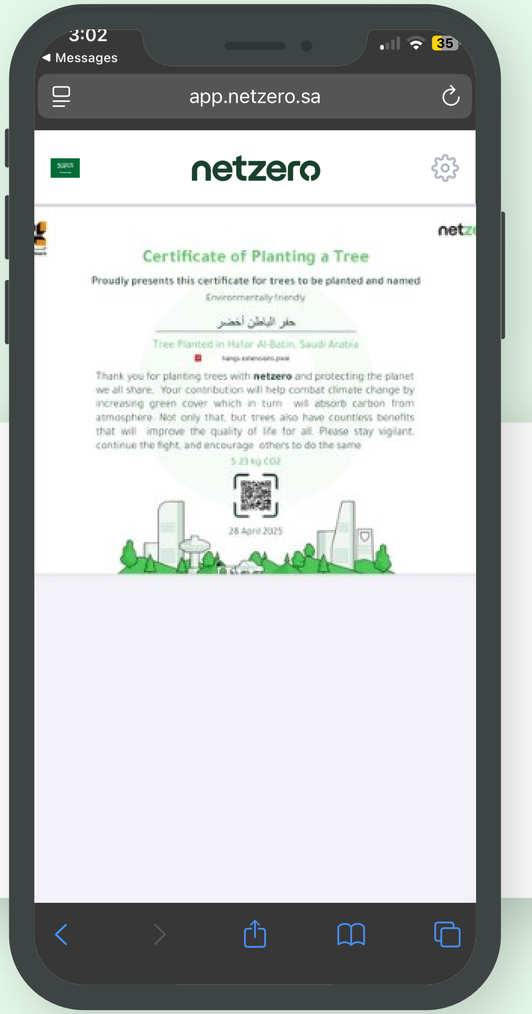


Users will be able to chat with the tree and engage more with nature. To learn about the place, its history and what is going on around it.

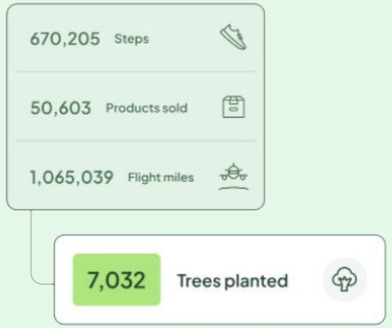


treewallet®

05



Users will be able to download a personalized certificate with QR code that is available for printing and framing.



LOCAL STRATEGIC PARTNERSHIPS

Netzero signed an agreement with Eastern Province Amana and its municipalities to host trees.

Netzero and Eastern Province Municipality join forces to cultivate urban mini-forests using urban pocket forests, **signing a pact for a greener future.**

Strategic Partnership With Modon

250,000 Smart Trees in Modon Industrial Cities

Netzero partnered with the Saudi Authority for Industrial Cities to plant **250,000** smart trees, reducing emissions and improving air quality in support of sustainable industrial cities.

Strategic Partnerships

1 million
in KARNR

- Landmark strategic partnership signed to plant 1 million smart trees in the King Abdulaziz Royal Nature Reserve, using cutting-edge nature-based solutions to restore the ecosystem.
- This initiative marks one of the largest tech-enabled reforestation efforts in the region to date.

1 million
across Al Madinah Region

- Strategic Partnership to plant 1 million smart trees and log existing trees using netzero technology.
- Improving the Air Quality Index, and Green area per person in the Western Region.

Local Strategic Partnerships

Witnessed by His Excellency the Minister of Environment, Water and Agriculture, Eng. Abdulrahman Al-Fadley, and the CEO of the National Center for Vegetation Cover, Dr. Khalid Al-Abdulkader, netzero signed an agreement with strategic partners to oversee and manage their plantation efforts through 2030

ENVIRONMENTAL + SOCIAL INITIATIVES

Environmental + Social Initiatives

مستشفى الولادة والأطفال
Maternity & Children Hospital

A tree for every newborn

Result **2,000** trees

Launched in collaboration with Dammam Childrens Hospital, netzero launched a campaign to plant a tree for every newborn child with the purpose of planting the seed of environmental awareness at a young age

Environmental + Social Initiatives

1 Goal = 100 Trees

Result **10,000** trees

Riyadh Bank sponsored a campaign with its partner Alhilal club to plant 100 trees with every goal scored by Alhilal. Alhilal had a record breaking season during this campaign

Environmental + Social Initiatives

بيت الثقافة
The Cultural House

Young Readers Program

Result **1000** trees

In partnership with the Cultural House, Netzero embarks on a journey of afforestation, where each reader is gifted a tree,

Environmental + Social Initiatives

Celebrating Research

Result **1000** trees

In collaboration with KFUPM netzero launched a campaign to celebrate research, patient and published papers by planting tree for every academic achievement.

Environmental + Social Initiatives

جامعة الأميرة
نورة بنت عبدالرحمن

Celebrating Outstanding Female Students

Result **100,00** trees

In collaboration with Princess Noura University, netzero launched a campaign to plant a tree for each outstanding student to promote high academic achievement while supporting the campus green index.
A strategic partnership was signed during 2024 to plant 100,000 smart trees and engaging the students in the university in development of joint research studies in the environmental sector.

Environmental + Social Initiatives

“Work Ready Women” Program

Result **1,000** trees

In partnership with the US Consulate in Khobar, netzero planted a tree in the name of women interns and onboarded them in netzero team to contribute in amplifying impact.

Environmental + Social Initiatives

Run for the Planet

Result **5,000** trees

A campaign launched by Bupa to encourage people to run in exchange, they will get a tree planted in their name

Environmental + Social Initiatives

Early Screening = Tree

Result **3,000** trees

In collaboration with Health Cluster and May Aljabr Cancer Detection Center, an initiative was launched to incentivize women to do early screening of breast cancer in exchange of a tree planted in their name

Environmental + Social Initiatives

مدينة الملك عبدالله الطبية بالعاصمة المقدسة
KING ABDULLAH MEDICAL CITY IN HOLY CAPITAL

Blood Donors Unite to Nurture Hope

Result **7,500** trees

In collaboration with King Abdullah Medical City, 100 volunteers donating blood to patients in need, Netzero plants a tree on behalf of each blood donor

Environmental + Social Initiatives

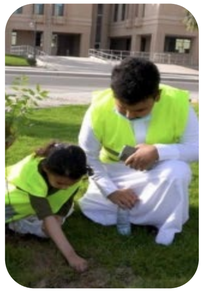
جامعة الإمام عبدالرحمن بن فيصل
IMAM ABDULRAHMAN BIN FAISAL UNIVERSITY

مدينة الملك فهد الطبية
King Fahad Medical City

Little Hearts, Big Impact

Result **500** trees

In a heartwarming collaboration between young heroes battling kidney disease and Imam Abdulrahman Bin Faisal University, a remarkable tree-planting initiative has taken root, inspiring hope and raising awareness for organ donations.



Environmental + Social Initiatives

Plant our Urth

Result **2000** trees

To promote responsible consumption and sustainable coffee industry, we're working with Urth Café to raise awareness on the importance of trees.

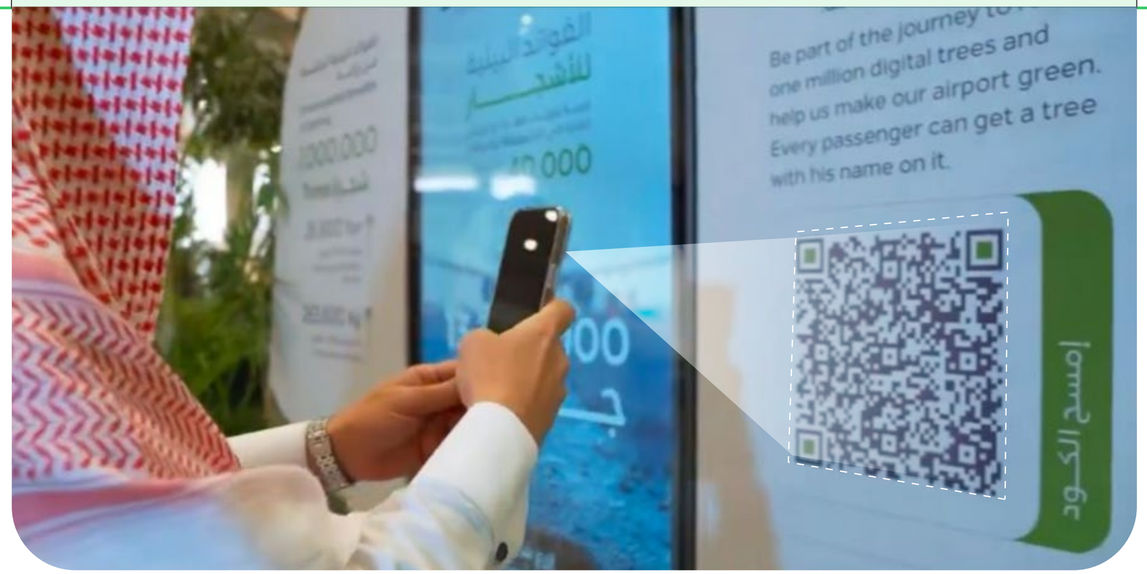
Environmental + Social Initiatives

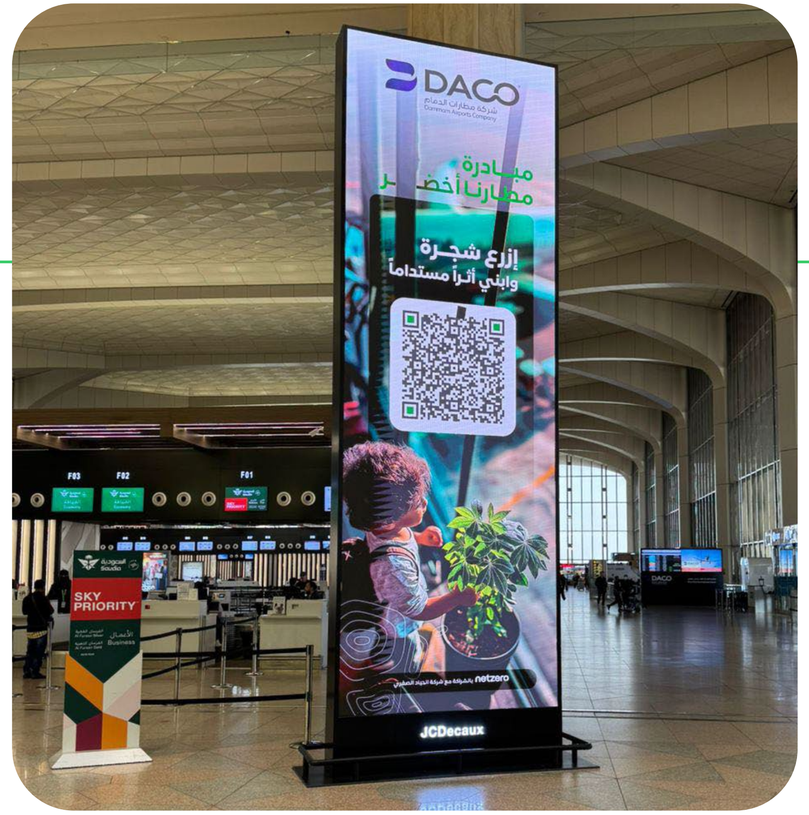
Green Airport

Result **1 million** trees

In collaboaration with Dammam Airport company, netzero launcehed a campaign to elevate travel experience. Travellers are able to have trees planted in their name in the aiport when they scan the QR code.

Dammam Airport





Global Recognition

22 MAY 2024

King Fahad International Airport has won the Green Airport Award for the first time since operation.

AIRPORTS COUNCIL INTERNATIONAL

Environmental + Social Initiatives

Smart Planting

Goal **1 million** trees

In collaboration with Jeddah Airports Company, netzero launched a smart afforestation campaign aiming to plant one million trees over five years. The initiative enables travelers to plant trees in their names by simply scanning a QR code at the airport.

Environmental + Social Initiatives

Smart Planting

Goal **1 million** trees

netzero has signed a strategic partnership with the University of Jeddah to launch a smart afforestation campaign — combining AI technology with student and faculty engagement to restore green spaces, enhance biodiversity, and advance climate research on campus.

Objective: Position the university as a pioneer in environmental innovation and carbon offset solutions in the region.

SOME OF OUR NOTICEABLE PROJECTS

Some of our Noticeable Projects

LARSEN & TOUBRO

35,000
in Dammam & Alkhobar

- Under the patronage of Eastern Province Municipality
- In collaboration with Aramco as part of a broader regional greening strategy

aramco

100,000
In Tanajib

- 100,000+ trees in 3 months
- Rapid desert ecosystem restoration
- Recognized by Aramco SVP for impact & execution

subsea 7

30,000
Across Eastern Region

- 30,000+ trees in 6 months
- Executed as a joint project with Aramco, part of the broader Eastern Province Green Project

Some of our Noticeable Projects

Restoring Ecological Richness to an Arid Desert

The Eastern Province Green Project in partnership with Aramco and Subsea7, has helped rejuvenate arid desert area by planting 25,000 trees

Restoration Plan for 100M trees

Conducted a study with the Ministry of Industry and Mineral Resources to restore a mining complex in a very harsh environment

Green Seaports

Launched and led the campaign to greening all Saudi Seaports and plant 5000 trees in each seaport

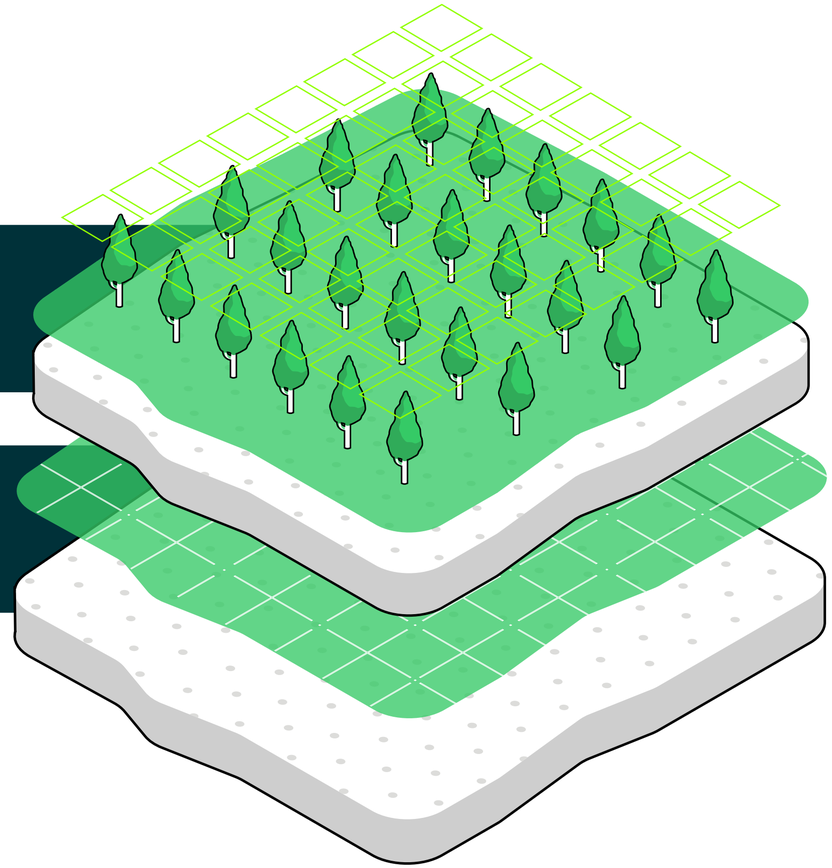
Trusted Solution

Nominated for multiple national and international awards

Our Impact in Numbers

1 million Trees by end of 2024

22,266 metric tCO2 removed annually



Built a shared economy network
Netzero has a network and access of more than **25 lands** across the kingdom, partnered with **12 nurseries.**
